

Oral health training for those caring for older people and adults with special needs

FREE
training

Training for those working in Hull and East Riding

FREE oral health training programme

City Health Care Partnership CIC's Oral Health Promotion Team is pleased to offer a FREE oral health training programme. This can be delivered in-house or at a central location.

Aims are to:

- Increase awareness of the importance of good oral health care
- Increase knowledge on how to maintain a healthy mouth for both you and your clients.

Learning Outcomes are to:

- Identify the barriers to delivering oral health care
- List the common oral conditions associated with the ageing population and how they can be diagnosed and treated
- Identify the risk factors associated with oral cancer
- Explain how to maintain and care for natural teeth on a daily basis
- Discuss advice on denture care.
